## Kengo Kuma & Yuki Ikeguchi

### New Aquatics Centre in Copenhagen by 'Kengo Kuma Associates'

Kengo Kuma & Associates, led by Yuki Ikeguchi, partner in charge, have recently won the competition to design a new waterfront cultural centre as part of the masterplan for Copenhagen's Paper Island in collaboration with Cornelius Vöge. The unique cone shaped form will combine facilities for sports associations, harbour baths and an indoor/outdoor pool along the edge of the main canal. The project creates a connection between land and sea, fulfilling Copenhagen's vision of a new addition to Paper Island.

Kengo Kuma is an architect, PhD and professor at the Graduate School of Architecture at the University of Tokyo. He is the founder of 'Kengo Kuma & Associates' that employs over 150 architects in Tokyo and Paris, designing projects of diverse type and scale throughout the world. Kuma runs diverse research projects concerning architecture, urbanity and design within his own Laboratory, 'Kuma Lab'. Kuma's projects maintain a keen interest in the manipulation of light with nature through materiality.
