

Personal invitation

Vernissage of the exhibition Umsicht – Regards – Sguardi

Applied Research – A dialogue between Denmark and Switzerland

6 September 2018

Design Werck, Krudtløbsvej 12 | 1439 Copenhagen

Vernissage of the exhibition Umsicht – Regards – Sguardi

How do we want to live together in the future? How can we make the built environment more energy efficient? What does it take for infrastructure projects to contribute to local identity? By holding the *Umsicht – Regards – Sguardi* awards, the *Swiss Society of Engineers and Architects (SIA)* recognises works that offer innovative and sustainable solutions to these and other current issues affecting «Baukultur». Eight works were singled out for an award for the holistic thinking and action behind them and their pronounced sense of responsibility in terms of society and «Baukultur». The exhibition presents the works from the personal viewpoint of photographer Beat Schweizer and film-maker Marc Schwarz.

At the opening event, Peter Richner (Deputy CEO of the Swiss Federal Laboratories for Materials Science and Technology) and Anne Beim (Head of the Center for Industrialised Architecture at the Royal Danish Academy of Fine Arts, KADK) will discuss innovations in the building sector and how they can be tested and further developed in practice. The aim is to generate interdisciplinary solutions to major challenges faced by industry and ensure the necessary scientific basis for our society to develop in a sustainable manner.

Programme 6 September, 3 – 4:30 p.m.

- Welcome
- Introductory presentation by Peter Richner on the Swiss award-winning research building NEST, which tests new technologies and materials under real-world conditions in modular units and uniquely combines research, business and practice
- Presentation by Anne Beim, Professor at KADK, on how CINARK (Center for Industrialised Architecture) develops and accumulates activities on production of industrial architecture from a sustainable point of view. Focus on methodologies, processes and products that define the field of sustainable industrial architecture
- Discussion

Afterwards, guests are invited to a drinks reception.
